**Reasons for Allowance**

The following is an examiner's statement of reasons for allowance:

Applicants' claimed invention wherein a polymer is prepared by a method employing at least one reaction chamber configured as a linear void space as defined in independent claims 1 and 14, and including the step of removing essentially all of the polymer from each reaction chamber with a harvesting plunger traveling along the linear axis of the void space from the first end to the second end of each reaction chamber, is not disclosed nor fairly suggested in any prior art located or identified by the examiner as of the date of the Notice of Allowability. Likewise, as to the claimed apparatus comprising a combination of "at least one reaction chamber", "shell" and "at least one harvesting plunger" as defined in independent claims 24 and 35, examiner has not found the combination to be taught or fairly suggested in the prior art.

Accordingly, claims 1-27, 30-38 and 41-43 are deemed to define allowable subject matter and are passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner F. M. Teskin whose telephone number is (571) 272-1116. The examiner can normally be reached on Monday through Thursday from 7:00 AM - 4:30 PM, and can also be reached on alternate Fridays.
